Mohammad Taheri

Software Engineer

mamad.taheri.68@gmail.com Shiraz, Iran linkedin.com/in/mohammad-taheri1/

Summary

Software Engineer with over 5 years of experience specializing in the implementation of responsive websites and user interface components. Proficient in agile environments, bringing a wealth of experience from startups to large enterprises. Skilled in maintaining product performance, and adept at troubleshooting and debugging code to enhance project outcomes.

Experience

Full Stack Engineer, *Weavr* 01/2025 – present
Brisbane, Australia

- As a Full Stack Engineer at Weavr, focus on developing a SaaS product that manages reconciliation and social responsibility strategies in Australia.
- Develop backend using ASP.NET Core WebAPI, RESTful API, MS SQL Server, and Microsoft Azure.
- Create frontend interfaces with React and TypeScript.
- Oversee the integration of Power BI into the application.

Full Stack Engineer, *Navoshgaran Asr Parse* 03/2024 – 12/2024
Tehran, Iran

- Integrated scalable APIs and responsive user interfaces on an enterprise project, enhancing system stability and performance.
- Developed backend side with Asp.Net Core Web API, gRPC, MS SQL Server, and CQRS. Optimized data retrieval processes, reducing query response time and increasing system reliability.
- Redesigned frontend side with React and TypeScript, Migrated from Redux and Bootstrap to Tanstack (React)Query and Tailwind CSS.

Front-End Developer, *Brand-Mart* 03/2023 – 02/2024
Vancouver, Canada

- Developed and executed an E-commerce solution for white-label product wholesalers; integrated advanced analytics, boosting conversion rates.
- Developed and launched dynamic web application using Next.js, Tailwind CSS, and Apollo GraphQL;
- Implemented comprehensive CRM features, increasing sales team productivity and reducing client follow-up time;

Front-End Developer, *Fanap Soft* 07/2022 – 12/2022
Tehran, Iran

- Contributed to a cross-functional agile team of 10 developers, enhancing an online healthcare platform, which improved patient engagement and reduced appointment scheduling time
- Developed and maintained front-end components using React, TypeScript, and JavaScript, improving page load speed and enhancing user engagement through efficient code optimization and refactoring.
- Implemented robust security measures using JWT and Refresh Token, preventing unauthorized access and reducing security breaches, thereby enhancing the overall application security and user trust.
- Enhanced performance by integrating patient, doctor, and hospital portals, optimizing workflow and reducing patient wait times by 20%.

Front-End Developer, *Navoshgaran Asr Parse* 07/2021 – 06/2022
Tehran, Iran

- Designed a suite of UI components using Class components in collaboration with 5 team members, enhancing user engagement reducing load time through optimized coding practices.
- Constructed required features and functionalities using React / TypeScript and JavaScript
- Increased project maintainability by writing unit tests for JavaScript functions

Full Stack Developer, *Freelance* 02/2020 – 06/2021
Shiraz, Iran

- Constructed and deployed scalable full-stack solutions for 3+ high-impact projects, enhancing performance and usability;
- Alo boors: Stock-Market Trading (Laravel): aloboorse.com
- Khat Arzesh: Investment Consulting (Laravel): khatearzesh.com
- HamyarAcc: Accounting (WordPress): hamyaracc.ir

Education

Master's Degree in Computer Engineering, 10/2016
Islamic Azad University, Fars Science And Research Branch Shiraz, Iran

Bachelor's Degree in Computer Engineering, 07/2013
Payam Noor University, Lamerd Branch Lamerd, Iran

Skills

- JavaScript
- TypeScript
- ReactJS
- Next.js
- Tailwind CSS
- Web API
- C#
